MEMORANDUM FOR: Director of Security

SUBJECT : Approved Agency Cash Box

1. I am advised that the cash box, developed by the Office of Security for insertion into Agency combination lock file cabinets, has been found to be insecure. This cash box was advertised on page 10 of Support Bulletin No. 16 dated October 1959 as "a metal cash box which meets the approval of Finance, Audit, and Security."

2. If my information is correct and the "approved cash box" does not provide adequate protection for Agency funds, all boxes issued to date should be recalled immediately for whatever alterations are necessary to make them secure unless such action could be accomplished at the field station. Any boxes now in stock in Logistics should be altered before they are issued.

3. Please advise me of the results of your investigation of this problem and of the action taken to correct deficiencies disclosed by your investigation.

Signed

L. K. WHITE
Deputy Director
